The International Symposium on Empirical Modeling

EMPIRICAL MODELING 2015
June 21 - 26, 2015 - Brussels, Belgium
http://www.iaria.org/conferences2015/EMPIRICALMODELING.html

Important deadlines:

Submission (full paper)	January 27, 2015
Notification	March 27, 2015
Registration	April 12, 2015
Camera ready	May 12, 2015

Tracks:

- Empirical Modeling principles
- Empirical Modeling applications (finance, health, online gaming, drugs design, environment, climate, buildings, urbanity, mobility, demography, oil and gas production, marketing, finance, etc.)
- Empirically-derived analytic Models
- Empirical Models for predictive analytics
- Empirical Modeling for optimization
- Empirical estimation of retention models
- Empirical Model design and development challenges
- Empirical data collection challenges
- Richly structured Empirical Models
- Verification and Validation of Empirical Models
- Empirical evidence and Empirical discovery
- Tools for Empirical Modeling
- Languages and notations for Empirical Modeling
- Programming aspects towards Empirical Modeling
- Quality, Clarity, and Accuracy in Empirical Modeling
- Empirical Modeling and statistical modeling approaches
- Maintenance of Empirically derived Models
- Cost-effectiveness of Empirical Models
