The Third International Workshop on Large-scale Graph Storage and Management
GraphSM 2016
June 26 - 30, 2016 - Lisbon, Portugal
http://www.iaria.org/conferences2016/GraphSM.html

Important deadlines:

Submission (full paper)	February 9, 2016
Notification	April 2, 2016
Registration	April 17, 2016
Camera ready	May 17, 2016

Tracks:

- graph data modeling
- storage and management of RDF databases
- graph database management systems
- storage systems for triples
- automatic distribution and replication of RDF data
- algebra and logic of triples
- indexing methods for graph processing
- SPARQL query processing
- intelligent distribution of SPARQL query processing
- map-reduce operations for graph processing
- analysis of graph databases
- intuitive user-interfaces for graph databases
