Special track
MVE: Mobile Virtual Environments

Chair and Coordinator
Jon Hjelmervik, SINTEF - Trondheim, Norway
Jon.M.Hjelmervik@sintef.no

along with

UBICOMM 2017, The Eleventh International Conference on Mobile Ubiquitous Computing, Systems, Services and Technologies
November 12 - 16, 2017 - Barcelona, Spain http://www.iaria.org/conferences2017/UBICOMM17.html

The MVE track welcomes submissions that make significant contributions to the state-of-the-art related to the interaction with virtual environments on mobile devices. We are now at a state where mobile phones are used as VR (Virtual Reality) headsets and 360 degree videos have become mainstream and even offered through YouTube.

The potential use cases for virtual environments in an Internet setting are expected to be enormous; however, there are still many scientific questions that need to be resolved.

Topics include, but not limited to:

- 3D formats suitable for Internet transmission
- Immersive videos
- Technology for 3D rendering on mobile devices
- Mobile Augmented Reality
